MAY BE KNOTT.

Story of a Man's Name and What Was Lost in the Telling.

On a certain corner in Atlanta a crowd. of old cronies were gathered, the center of attraction being Bill Knott, who had just returned after an absence of six years. In the midst of the animated conversation Jim Kade sauntered up, and, after a mo-ment's hesitation, reached out his hand, saying: "Your face is certainly familiar, but for the life of me I can't recall you; what is your name?"
"Well," replied Bill, "it might be Brown, but it is Knott." At this answer there was a spontaneous burst of merriment, during which Kade. ooking in a puzzled way from one to the other, Bill tried to enlighten him.

"And," said he, "it might be Green, but it is Knott.' This, with Kade's increasing confusion and inability to "catch," raised the hilarity to unusual bounds-Nat Smith specially laughed so loud and so long that he went off down the street holding his aching sides. When he reached home he told his When he reached home he told his wife he surely had heard a good thing that day, and he would tell her about it so she could have a good laugh. "Jim Kade came up, and not being able to locate Bill Knott, asked him what his name was, and Bill said: 'Well, it might

be Brown, but it ain't." Here Smith, remembering that he had reached the point that had produced such merriment among the men, went off into fresh convulsions of laughter; then, wiping his eyes, he said: "But Kade didn't catch on, and so Bill said again: 'And it might be Green, but it ain't!" and he roared again until, catching sight of his wife's serious expression, he came to a sudden halt. "You know," she said, "I don't see a thing funny in don't either, and I can't see what the dif-

ference is, for when Knott told it it was one of the best things I ever heard!" A Louisiana Idea.

Richmond Times-Dispatch. In a recent isue of the New Orleans Pic-ayune the following advertisements, brief nd to the point, appeared: "I am applying for a commutation of sen-

"I am applying for a commutation of sen-tence. John Batiste." "I am applying for a pardon. Joe Bell." The explanation is this: These men are onvicts who are applying for pardon, and under a law that seems to be peculiar to Louisiana (we never heard of the like elsepersons having cause to oppose or to favor the applications may have an opportunity to be heard before the pardoning power takes action. This is, in our opinion, a good

TONE STILL DESPONDENT

SPECULATION HALTS UNDER INCU-BUS OF MONEY CONDITION.

Loans Rise to 7 Per Cent., Followed by Heavy Liquidation of Stocks-Bond Market Also Weak.

NEW YORK, March 16 .- The feeling of encouragement professed on Saturday over the money situation as indicated by the bank statement was dissipated to-day. When call money rose to 7 per cent. discouraged bulls began to throw over stocks, and there was evidence of considerable liquidation by holders. Prices went down very easily and there was no appearance of effective support until a sudden upward spurt in Southern Pacific during the last half hour, The marking up of this stock to 63 was so characteristic of the drastic speculative method of the manager of the pool in Southern Pacific that the shorts took fright and covered hastily in various parts of the market. Union Pacific recovered in the late rally as Southern Pacific had done in the early weakness. There was a manifest embarrassment in the supposed efforts which were making all day to depress Union Pacific and support Southern Pacific. Speculators assumed this purpose on the part of the pool in connection with its suit to prevent the diversion of Southern Pacific earnings away from dividends. The possible incidental conse-quences of this suit are unsettling influences on speculation, on account of the important questions that may arise regarding the control of competing lines by ownership of stocks held in the treasury of a railroad corporation.

The progress of the voting on the strike labor question in the mind of the speculative public. The progress of the spring season gives constantly new occasion for the consideration of this subject by reason of new demands for higher wages and disputes growing out of them. This is a widereaching influence for depression in the present temper of speculation. The pr sition for New York to provide its own street lighting plant caused further sharp losses in the local gas stocks. The selling pressure seemed particularly severe against New York Central; for what reason was not disclosed. A decline of 11 points in N. Y., C. & St. L. from the preceding sale marked the difficulty of finding a market

for dormant securities. It was hoped that the success of the banks last week in keeping within their legal reserve requirement would lead to quieter money conditions this week. The absence of violent disturbance in stocks last week in spite of the \$15,000,000 loan contraction seemed to be regarded as encouraging, and there was a momentary effort to pull up prices, and some progress was made in the case of Reading, Wabash preferred, Louisville and a few other stocks. The disbursement of the Standard Oil dividend to-day seemed to be without effect in relieving the money market. London sold stocks here and sterling exchange advanced, both of which were factors in the weakness of the market. The fact that the week starts with a slight gain for the banks on subtreasury operations afforded but mild satisfaction. The rally in the market was coincident with the arrival at his office of a leading individual in the financial world after a vacation absence. The bond market was weak in sympathy with stocks. Total sales at par value were \$1,875,000. United States fours, registered, advanced 1/2 per cent. on the last call. Following are the day's share sales and

LOCAL WHOLESALE TRADE

BUSINESS IS FAIRLY ACTIVE, DE-SPITE THE RAINY WEATHER.

Prices Are Easing in Produce, but Green Stuff Is Firmer-Receipts of Grain Not Up to the Demand.

For a rainy day the los markets were quite active. On Commission row shipments of fruits and vegetables are large. Dealers are receiving considerable green stuff from the Southern States and there is a growing demand. Prices are firmer than ten days ago. In the meantime old winter stock is neglected. Cucumbers are weaker, but cauliflower has advanced. Lettuce quotations are firmer. Apples, unless choice, are selling at concessions, and prices are cut on Irish potatoes to effect large sales. Produce merchants are busy. Receipts are increasing daily and prices are weak at quotations. Cheese is in light supply and prices are very firm. Wholesale grocers had a good day, filling orders brought in by the traveling salesmen on Saturday and mail orders of the morning. There is an unsettled tone in sugars, coffees and canned goods-in canned goods especially for tomatoes and beans. Corn is in lighter supply and is a shade firmer. The provision market is active, the only change being an advance of 50c a barrel in pickled pork. The flour market is in the same position as for several days, with slightly higher or lower figures named under certain circumstances. Navy beans are easy, but quotations continue the same. Dry goods houses had a fairly busy day, but weather conditions curtailed their trade to some extent.

Indianapolis Grain Market.

The local grain market is active, but receipts are disappointing. All cereals are in good demand at prices quoted, based on bids on call, as reported by the secretary of the Board of Trade. Quotations range as

The Supreme Court has rendered a decision sustaining the right of the Louisi-anna Legislature to pass the Wilson law,

PRICE GOES OFF TWO CENTS, BUT RECOVERS SLIGHTLY.

Oats and Wheat Close Lower Under

the Corn Influence-Hog Products

Also Are Weak at Declines.

of over 2 cents in May corn to-day, due to heavy liquidation, and the close was down 1%c. Wheat was off %c and oats were 14@14c lower. Provisions were easier and

closed from 71/2c to 25c lower. Trading in wheat was only moderate and the market held fairly steady the greater part of the day, but the extreme weakness in corn caused a decline late in the session and the close was near the bottom. May opened a shade to 1/3c higher at 741/2c to 741/2 @74%c on comparatively steady cables-the markets at Liverpool failing to respond to the decline here Saturday-and on small world's shipments, the decrease being largely from Russia and Argentina. There was general selling by commission houses but offerings.were well taken by pit traders and local longs and the price remanied steady until the session was well advanced. when a reversion of sentiment developed on the break in corn and a decline to 73%c followed. The close was %c lower at 73%c to 73%c. Clearances of wheat and flour were equal to 335,000. Primary receipts were 797,000 bu against 691,000 a year ago. The du Nord, 814c. Grain Bags-Amoskeag, \$14.50; American, \$14.50; Harmony, \$13.50; Stark, \$16.50. amount on passage decreased 1,672,000 bu. Minneapolis and Duluth reported receipts of 608 cars, which with local receipts of 27 cars-none of contract grade-made a total of 635 cars, against 568 last week and 579 a

near the bottom. The selling was a continuance of the liquidation begun last week and was on a scale sufficient to satisfy the most incredulous that the bull campaign inaugurated several weeks ago had been and at first was confined mainly to one or two large operators, but as the session adment, so that for a time it seemed as if the whole pit had corn for sale. The openng was easy on lower cables, May a shade ower at 46% @46%c, and from the tap of the bell until late in the day the market experienced a gradual decline. At 44%c there was some covering by shorts and a slight reaction occurred, the close being off 1%c at 45%c. Receipts were 369 cars, one of contract grade.

There was early selling of oats on the increased receipts, but offerings were well taken and the market held steady until late in the session when prices declined with corn. The volume of trade was only moderate. The close was weak and 1/6%c lower for May at 34%c, after selling between 34%c and 34%c. Receipts were 413

There was considerable liquidation rovisions, induced chiefly by the weakness in corn, although liberal receipts of hogs and a decline of 5@10c in prices at the yards were early bear factors. There was no effort to support the market and the whole list slumped, the close being weak and 25c off on May pork at \$17.87½. Lard was down 17½c at \$9.95 and ribs were 7½c lower at \$9.87½.
